Agradezco el apoyo brindado por La Fábrica de producción editorial (Proyectos en formación 2020 perteneciente al Programa de Apoyo a la Producción e Investigación en Arte y Medios del Centro Multimedia del Centro Nacional de las Artes de la Secretaría de Cultura), ademas de aquellos que sin su apoyo no hubiera sido posible este libro: Bertita Mercurio López, Suweii, Andrés Villalobos, Andrea Fuentes, Alejando Magallanes, Vanesa López, Guz, Tsayi, Berliac y claro a quienes me ayudaron de alguna manera cuando este libro estaba siendo dibujado en plena pandemia: Mis papás, Lic. Federico Ponce, Señor Jaime, Jimena Zermeño, Sara Schuls, Enrique Escalona, Chelita, Tía Pili, Moni, Gaby.

Prólogo

En *Pequeñas y medianas observaciones* surgen universos que se cruzan desde lo cotidiano hasta lo fantástico, en una secuencia permanente en la cual la meta y el camino son el mismo asunto. Dentro de un contraste bien logrado entre blanco y negro, en el primer universo los protagonistas son objetos inanimados: las escaleras, la azotea, el pasillo y la calle, entre otros, mientras que en el exterior la geometría rectangular de las construcciones es quebrantada por árboles de follaje irregular. El dibujo detallado de edificios y calles del paisaje urbano sitúan claramente la ciudad, la colonia y la estación del tren subterráneo y nos lleva a otra dimensión, en la que ya podemos ver al personaje principal, un dibujante. En el interior del nuevo vaso comunicante el protagonista, en aparente tranquilidad, toma agua, observa, camina y dibuja. Su recorrido es al mismo tiempo el proceso creativo en el que lo trazado no termina de gustarle y va de lo figurativo a lo abstracto, de la suavidad a la furia; dibuja y descarta. Un nuevo mundo surge entre las hojas que no aprueba y arruga, ahí cobra vida la autocaricatura del dibujante, convertido en un personaje vertiginoso a quien literalmente se le van los ojos al ver su trabajo. Su búsqueda concluye con el dibujo ideal en un luminoso y gran desenlace. ¶ En una misma página de *Pequeñas y medianas observaciones*, vemos espacios con variantes superpuestas, como si se tratara de una muñeca rusa. Aquí todo se relaciona y hace referencia a historietas anteriores y, tal vez, a secuencias futuras, en una obra independiente y al mismo tiempo complementaria. De nuevo, la Ciudad de México es el pretexto ideal para enmarcar la narración, en la cual se mantienen los cameos de rótulos y lugares, con la intención de crear un vínculo sutil. ¶ En esta novela gráfica Emmanuel Peña nos comparte su búsqueda y pasión por crear lugares íntimos y sensacionales en la aparente calma de la vida cotidiana. Una propuesta indispensable para los amantes del género.
